SUMMARY

Backend Developer with 2+ years of professional experience building scalable server-side systems with **PHP**, **Node.js** and **MySQL**. Designs clean REST APIs, optimises database performance, and integrates payment gateways, shipping providers and corporate card platforms. Shipped enterprise SaaS and e-commerce products to production on **AWS** with CI/CD.

EXPERIENCE

Backend Developer

May 2023 – Present

Aeonx Digital Technology Limited

Bhuj, Gujarat

- Design and develop scalable backend systems using **PHP** and **Node.js** for enterprise SaaS products
- Build and maintain **REST APIs** consumed by web (Next.js) and mobile (Flutter) clients
- Manage **MySQL** schemas, write optimised queries, and handle migrations and indexing
- Integrate third-party services including payment gateways, email providers, and cloud APIs
- Deploy and manage applications on **AWS** (EC2, S3, RDS) with CI/CD pipelines via GitHub Actions

Backend Developer Intern

Dec 2022 – Apr 2023

Infinitie Technology Limited

Bhuj, Gujarat

- Assisted in building backend modules for client web applications using **PHP**
- Wrote and optimised SQL queries for data retrieval and reporting features
- Collaborated with senior developers on API design, integration patterns, Git workflows and agile practices

PROJECTS

Xpense – Enterprise Travel Management SaaS | *PHP, Next.js, Flutter, MySQL, AWS*

x-pense.cloud

- Live SaaS covering corporate travel end-to-end: trips, cash advances, expenses, reports and reimbursements
- Built multi-level approval chains, automated reports, and expense logging with receipt uploads and policy checks
- Integrated **Omnocard API** for prepaid corporate-card advances with balance and transaction tracking
- Delivered in-app flight and hotel booking for employees

Foodio – FMCG E-Commerce Platform | *Node.js, Next.js, MySQL, Razorpay*

foodio-user-panel.vercel.app

- Building the full commerce lifecycle, from onboarding and catalogue to fulfilment and delivery tracking
- Implemented role-based authentication (admin, staff, customer) on a modular MVC architecture
- Developed inventory management with stock tracking and low-stock alerts, plus a complete order lifecycle
- Integrated **Razorpay** for online payments and **Shippo** API for automated shipping and tracking

EDUCATION

HJD Institute of Technical Education & Research (GTU)

Bhuj, Gujarat

Bachelor of Engineering in Computer Science & Engineering – CGPA: 9.18

2023

Swaminarayan Vidhyalaya

Bhuj, Gujarat

HSC (Science) – 67% | SSC – 76%

2018 | 2016

TECHNICAL SKILLS
